SAFETY DATA SHEET

Material: REVALESKIN FACIAL CLEANSER

synonym(s): REVALESKIN FACIAL CLEANSER (0.1% COFFEEBERRY EXTRACT) * FORMULATION CODE: MF-4004-04 * STIEFEL PRODUCT * COFFEA ARABICA FRUIT EXTRACT (COFFEEBERRY), FORMULATED PRODUCT

Recommended Use: Cosmetic Product

Note: This safety data sheet is written to provide health, safety and environmental information for people handling this formulated product in the workplace. It is not intended to provide information relevant to medicinal use of the product. In this instance patients should consult prescribing information/package insert/product label or consult their pharmacist or physician. For health and safety information for individual ingredients used during manufacturing, refer to the appropriate safety data sheet for each ingredient.

2. HAZARDS IDENTIFICATION

Fire and Explosion Hazards:
This product is non-flammable.

Health:
Handling this product in its final form presents minimal risk from occupational exposure.
Possible effects of overexposure in the workplace include: irritation.
Health effects information is based on hazards of components.
Exposure might occur via ingestion; skin; eyes.

Environment:
No information is available about the potential of this material to produce adverse environmental effects.

4. FIRST-AID MEASURES

**Ingestion**
Never attempt to induce vomiting. Do not attempt to give any solid or liquid by mouth if the exposed subject is unconscious or semi-conscious. Wash out the mouth with water. If the exposed subject is fully conscious, give plenty of water to drink. Obtain medical attention.

**Inhalation**
Using appropriate personal protective equipment, move exposed subject to fresh air. If breathing is difficult or ceases, ensure and maintain ventilation. Give oxygen as appropriate. The exposed subject should be kept warm and at rest. Obtain medical attention in cases of known or possible over exposure, or with symptoms including chest pain, difficulty breathing, loss of consciousness or other adverse effects, which may be delayed.

**Skin contact**
Using appropriate personal protective equipment, remove contaminated clothing and flush exposed area with large amounts of water. Obtain medical attention if skin reaction occurs, which may be immediate or delayed.

**Eye contact**
Wash immediately with clean and gently flowing water. Continue for at least 15 minutes. Obtain medical attention.

NOTES TO HEALTH PROFESSIONALS

**Medical Treatment**
Treat according to locally accepted protocols. For additional guidance, refer to the current prescribing information or to the local poison control information centre.

**Medical Conditions Caused or Aggravated by Exposure**
None for occupational exposure.

**Health Surveillance Procedures**
Pre-placement and periodic health surveillance is not usually indicated. The final determination of the need for health surveillance should be determined by local risk assessment.

**Antidotes**
No specific antidotes are recommended.

5. FIRE-FIGHTING MEASURES

**Fire and Explosion Hazards**
Not expected for the product, although the packaging is combustible.

**Extinguishing Media**
No special requirements needed.

**Special Firefighting Procedures**
For single units (packages): No special requirements needed.
For larger amounts (multiple packages/pallets) of product: Since toxic, corrosive or flammable vapours might be evolved from fires involving this product and associated packaging, self contained breathing apparatus and full protective equipment are recommended for firefighters. If possible, contain and collect firefighting water for later disposal.

**Hazardous Combustion Products**
Toxic, corrosive or flammable thermal decomposition products are expected when the product is exposed to fire.

6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions**
Wear protective clothing and equipment consistent with the degree of hazard.

**Environmental Precautions**
For large spills, take precautions to prevent entry into waterways, sewers, or surface drainage systems.

**Clean-up Methods**
Collect and place it in a suitable, properly labelled container for recovery or disposal.

**Decontamination Procedures**
No specific decontamination or detoxification procedures have been identified for this product.
7. HANDLING AND STORAGE

HANDLING
General Requirements No special control measures required for the normal handling of this product. Normal room ventilation is expected to be adequate for routine handling of this product.

STORAGE No storage requirements are considered necessary for the control of fire and explosion hazards.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Other Equipment or Procedures None required for normal handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical Form Liquid.

10. STABILITY AND REACTIVITY

Stability This product is expected to be stable.
Conditions to Avoid None for normal handling of this product.

11. TOXICOLOGY INFORMATION

Target Organ Effects No specific target organ effects have been identified.
Routes of Exposure
Oral Toxicity Adverse effects might occur following ingestion. Assessment based upon effects of individual components.
Inhalation Toxicity No studies have been conducted.
Skin Effects Irritation might occur following direct contact. Assessment based upon effects of individual components.
Eye Effects Irritation might occur following direct contact with eyes. Assessment based upon effects of individual components.
Sensitisation Sensitisation (allergic skin reaction) is not expected. Assessment based upon effects of individual components.
Genetic Toxicity Not expected to be genotoxic, based on effects of individual components.
Carcinogenicity Titanium dioxide is listed as a carcinogen by external agencies. (IARC) Animal carcinogen. Carcinogenic activity was seen in inhalation studies using laboratory animals. High concentrations or doses administered over an extended period of time were required to produce adverse effects.
Reproductive Effects Not expected to produce adverse effects on fertility or development under occupational exposure conditions. No adverse effects have been reported following extensive use or exposure in humans.
Other Adverse Effects Overexposure in the workplace might have the following effects: irritation. Accidental ingestion of this product may have the following effects: nausea; vomiting; irritation of the gastrointestinal tract; diarrhoea.

12. ECOLOGICAL INFORMATION

Summary No information is available about the potential of this product to produce adverse environmental effects. Local regulations and procedures should be consulted prior to environmental release.

13. DISPOSAL CONSIDERATIONS

Disposal Recommendations Collect for recycling or recovery if possible. The disposal method for rejected products/returned goods must ensure that they cannot be re-sold or re-used.
Regulatory Requirements Observe all local and national regulations when disposing of this product.
14. TRANSPORT INFORMATION

The SDS should accompany all shipments for reference in the event of spillage or accidental release. Only authorised persons trained and competent in accordance with appropriate national and international regulatory requirements may prepare dangerous goods for transport.

UN Classification and Labelling

Transport Information: Not regulated in transport.

15. REGULATORY INFORMATION

The information included below is an overview of the major regulatory requirements. It should not be considered to be an exhaustive summary. Local regulations should be consulted for additional requirements.

EU Classification and Labelling

Exempt from requirements of EU Dangerous Preparations directive - product regulated as a medicinal product, cosmetic product or medical device.

Classification: This product is exempt from the requirements of the OSHA Hazard Communication Standard.

Other US Regulations

TSCA Status: Exempt

16. OTHER INFORMATION
